Report of the Committee-

To the City Council of the City of Biddeford.

The Committee appointed to take into consideration the propriety of having the old Records to the Town of Biddeford, transcribed, have attended to that duty, and report, that they have examined the two oldest Books of Records in possession of the City of Biddeford, and find them in a very bad state; and that they have had an offer from Frederick D. Edgerly to transcribe the two Books above named, and to put them in good order, for the sum of two hundred dollars: and your Committee would recommend, that a Committee or Agent be appointed to contract with Frederick D. Edgerly to transcribe the two Books above named.

At a Town Meeting by adjournment-

Attest: Rishwth Jordan,
Town Clerk-

1774.

At a Meeting of the inhabitants of the Town of Biddeford-

the 30th. day of July 1774.

Resolved,

1st. Whereas, the Parliment of Great Brittan, has for the express purpose of raising a Revinue and an unconstitutional tax, on the Inglish American Colonies, made several Acts highly distressing to sd Colonies in general, and this Province in particular; by which act the Metropolis of this Province is blocked up and distressed: the Civil Government of the Province Altered (as far as by said act it can be) in the most material and priviledged points thereof; and particularly the invaluable right of a trial by an uncorrupt Jury intirely destroyed.-

2d. Therefore Resolved, that the inhabitants of this Town, now assembled will in a resolute, manly and determined manner persue all such legal and constitutional Method, as shall by the other Towns in this Province be thought conduceive to the restoration of our natural rights as men and our Political rights as Englishmen and that no inconvenience however injurious to the private interest of any of us, shall be a sufficient cause to break his resolution;

And Whereas the Committee of correspondent for the Town of Boston has transmitted to us papers to be signed by the inhabitants of this Town, which papers contain certain covenant oaths and agreements that the subscribers thereto, shall break off all Commercial intercourse with the Island of Great Britian, untill the oppressive acts aforesaid are totally repealed: and the inhabitants of this Town being very sensible that there is no method yet pointed out which tends so much to the advancing the oppulance of this Country and happy extrication of it from its present difficulties and distreses as the universal coming into and the Religious observation of those covenant and agreements or others somewhat similar thereto-

3^{d}- It is therefore Resolved, that if the Committee appointed by the late Honourable House of Representatives of this Province to meet the Delegates of the other Colonies in General Congress at Philadelphia or elsewhere-

(over)

1774. (Continued)

And the other Members of s^{d} Congress shall advise to a Universal withdrawment of our Commerce with the Island of Great Britian untill the aforesaid oppressive acts of Parliament shall be repealed we will strictly adhere thereto; and as our dependance under God is chiefly placed in the steady persuance of such wise measures as shall be recommended by the Congress-

We Therefore Resolved, that whatever Measure shall be by said Congress advised to, and complied with by the majority of the other Towns in this Province shall be literally and strictly adherd to by us-

And We further Resolve, that if any person among us shall demean himself contrary to any plan that shall be laid, for our deliverance by the Congress and agreed to by this and the majority of the other Towns in the Province, we will have no society, trade or commerce with such person; but will esteem and treat him as an enemy to this Country-

Attest: Riahwth Jordan,
Town Clerk-

1774. (Land Laid Out)

In Congress,

July 4th. 1776.

A Declaration by the Representatives of the United States of America, in General Congress assembled.

When in the course of human events, it becomes necessary for one people to dissolve the Political Bonds, which have connected them with another, and to assume among the powers of the Earth, the separate and equal station to which the laws of nature and of natures God entitles them a dearest respect to the opinions of mankind, requires that they should declare the causes which impel them to the separation.

We hold, these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are life, Liberty, and the pursuit of happiness:- That to secure these rights, Governments are instituted among men, deriving their just power from the consent of the governed, that whenever any form of Government become destructive of these ends, it is the right of the people to alter or to abolish it, and to institute

new Government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness.

Prudence indeed, will dictate that Government long established, should not be changed for light and transient causes, and accordingly all experience hath shown, that mankind are more disposed to suffer while evil are insufferable, than to right themselves by abolishing the form to which they are accustomed. But when a long train of abuses and usurpations pursuing invariably the same object, evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new guards for their future security; such has been the patient sufferances of these Colonies; and such is now the necessity which constrains them to alter their former systems of Government.

The history of the present King of Great Britian is a history of repeated injuries and usurpations, all having indirect object, the establishment of an absolute turanny over these States; to prove this, let facts be submitted to a candid World.

He has refused his assent to laws, the most wholesome and necessary for the public good. He has for-

bidden his Governors to pass laws of immediate and pressing importance unless suspended in their operation until assent should be obtained; and when so suspended, he has utterly neglected to attend to them; He has refused to pass other laws for the accommodation of large Districts of people, unless those people would Relinquish the rights of representation in the Legislature, a right inestimable to them and formidable to Tyrants only.

He has called together Legislative bodies at plans unusual, uncomfortable, and distant from the Depository of their public records for the sole purpose of fatiguing them into a compliance with his measures;

He has dissolved Representative Houses repeatedly, for opposing with manly firmness, his invasions on the rights of the people.

He has refused for a long time, after such dissolution, to cause athers to be elected; Whereby the Legislative powers incapable of annihilation, have returned to the people at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within -

He has endeavoured to prevent the population of these States; for that purpose obstructing the laws

for Naturalization of Foreigners; refusing to pass others to encourage Migrations hither, and raising the conditions of new appropriations of lands - He has obstructed the administration of Justice by refusing his assent to laws for establishing Judiciary powers.

He has made Judges dependant on his will alone, for the tenure of their offices, and the amount and payment of their salaries; He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their substance -

He has kept among us, in time of peace, standing Armies, without the consent of our Legislature; He has affected to render the military independent of, and superior to the civil power; He has combined with others to subject us to a Jurisdiction foreign to our Constitution, and acknowledged by our laws; giving his assent to their acts of pretended Legislation for quartering large bodies of armed troops among us; for protecting them by a mock trial from punishment for any murders, which they should commit on the inhabitants of these States; for cutting off our trade with all parts of the world; for imposing taxes on us without our consent; for depriving us in many cases, of the benefit of trial by Jury; for transporting us beyond Seas to be tried for pretended offences; for abolishing

He has excited Domestic insurrections among us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, in an undistinguishing destruction of all ages, sexes, and conditions, in every stage of these oppressions; We have petitioned for redress in the most humble terms; our repeated petitions have been answered only by repeated injury.

A Prince whose character is thus marked by every act which may define a Tyrant is unfit to be the Ruler of a free People; nor have we been wanting in attention to our British Brethren.

We have warned them from time to time of attempts by their Legislature to extend an unwarrantable Jurisdiction over us; We have reminded them of the circumstances of our emigration and settlement here; We have appealed to their native Justice and Magnanimity, and We have conjured them by the ties of our common kindred to disavow these usurpations which would inevitably interrupt our connexions and correspondance.

They too have been deaf to the voice of Justice and consanguinity. We must, therefore acquiesce in the Necessity which denounces our separation, and hold them, as we hold the rest of Mankind, enemies in War, in peace friends -

We therefore, the Representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name and by the Authority of the good people of these colonies, solumnly publish and declare, that these united Colonies, 1776 are and of right ought to be, free and independent States; that they are absolved from all allegiance to the British Crown; and that all political connexions between them and the States of Great Britian, is and ought to be totally dissolved; and that as free and independent States, they have full power to levy war, conclude peace, contract Alliances, establish commerce, and to do all other acts and things which independent States may of right do.

And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, We mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

Signed by order and in behalf of the Congress.
